21 - What class activity or assignment did you like the best and why?

Natalia Guggisberg

Response Rate 4/10 (40%)

- We really only ever did Gram-staining and growing cultures and repeated this lab multiple times throughout the semester. So I have become very efficient in making a gram-stain on a slide to look at
- N/A
- We did not do any class activities.
- All we seemed to do was gram stain. She never had actual activities planned

22 - What class activity or assignment was the least useful and why?

Natalia Guggisberg

Response Rate 3/10 (30%)

- N/A
- None. The slides, that did not have much information on them, were rushed though. 3 Micro chapters done in an hour and a half. We did maybe 2 labs the whole semester and they were redundant.
- All of it, we taught ourselves and each other

Hagerstown Community College

FA23 Course Evaluations

Course: MLT-202L-01: Clinical Microbiology: Lab
Instructor: Natalia Guggisberg *
Response Rate: 5/10 (50.00 %)

23 - What specific recommendations do you have for the course or instructor?

Natalia Guggisberg

Response Rate 4/10 (40%)

• There was no real structure for labs. Most of the time we went into the lab and did quizzes or worked on homework. It would be helpful if there was more structure and outline to what was going to be planned for the day in lab. Not knowing what we are doing for the day and then just sitting there not really doing anything did not help. It would also be helpful at the beginning of the semester if there was more guidance for exams. Being told what chapters are going to be on it is helpful but when the chapters are roughly 40-50 pages long there is a lot of material to cover and it all seems important so that is a lot of material to remember with very little time to study when they are sprung on us last minute.

- N/A
- Do labs that correlate with the program. Have assignments planned in advance and give them back in a timely fashion for people to use to study. Be able to answer questions and not get defensive.
- Try actually teaching. Answer questions without an attitude. Reply to your students . Just communicate in general. Plan lessons. Learn to teach!!!

24 - The instructor explained the materials and equipment to be used in lab.

Natalia Guggisberg
